

Discernment and the Spiritual Journey

God creates us and desires a personal relationship with us. This desire or longing for relationship lives in the heart of each of us and "our hearts remain restless until they rest in God." (St. Augustine)

How can I get in touch with the movements of my heart and discern which ones lead me toward God - which ones lead me away from God?

This four-week series will offer the opportunity to learn more about the desires of the human heart and provide the atmosphere for cultivating a discerning heart.
